BEFORE USING THIS CATALOG

How to use the catalog

If you know the model No. or the series name

INDEX	F-7
Model No. INDEX	P.1423

To select or compare an item (selection page)

Fibers	P.5
Fiber Sensors (Amplifiers)	P.3
Laser Sensors	P.251
Photoelectric Sensors	P.283
Micro Photoelectric Sensors	P.441
Area Sensors	P.475
Light Curtains	P.511
Pressure / Flow Sensors	P.661
Inductive Proximity Sensors	P.757
Particular Use Sensors	P.831
Measurement Sensors	P.967
Static Control Devices	P.1075
Laser Markers	P.1131
Human Machine Interfaces	P.1189
Energy Consumption Visualization Components	P.1206
Timers	P.1231
Counters	P.1257
Hour Meters	P.1273
Limit Switches	P.1293
Fan Motors	P.1305
UV Curing Systems	P.1341

To view applications

Typical Applications	F-18

To view technical guide

Technical Guide	P.1352

To view standards

Standards & Regulations	P.1407

Information on product pages

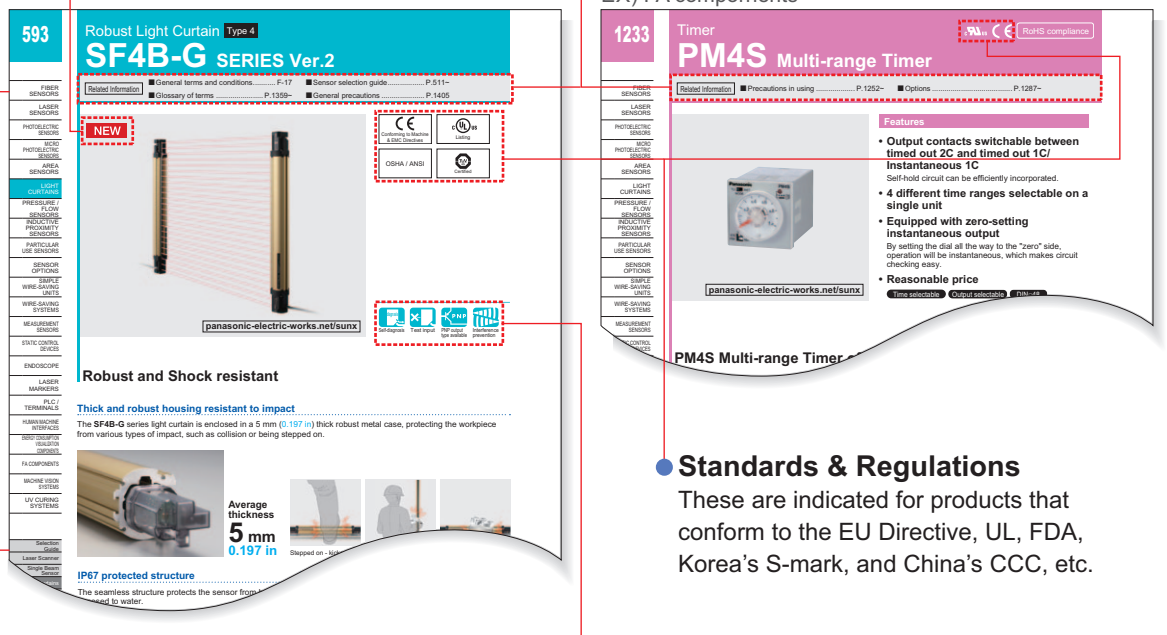
NEW mark

New products
(products that have been released since June 2010)

Related information

Pages with general cautions, selection guides, and related product information are indicated here.

EX) FA compornents



Standards & Regulations

These are indicated for products that conform to the EU Directive, UL, FDA, Korea's S-mark, and China's CCC, etc.

Function mark

(Photoelectric / Inductive Proximity / Pressure Sensor etc.)
Equipped functions are indicated using marks.

Model index

The product category and series name can be confirmed at a glance making it convenient to search for products.
