Dear Customer,

It is with great pleasure and pride that I write this introduction to our brand new product catalogue. This is the best catalogue that we have ever produced and contains exciting new products, as well as all the core products that you are familiar with.

At Trumeter we really value your business and we want to offer you products and solutions that help you to succeed. We have a long and rich history of delivering reliable, high quality, innovative products. Since our formation in 1937 we have continuously invested in improving our products, engineering and production capabilities. This trend continues right up to today. In the last 12 months we have invested heavily in both new people and skills and state of the art manufacturing equipment.

The acquisition of Redington in 2011 means we can now offer you an even larger range of professional control and measurement products. These products like the rest of the Trumeter range, are manufactured to highly exacting quality standards at our world class manufacturing facility, a facility you are more than welcome to visit.

The Trumeter team and I are committed to achieving 100% customer satisfaction, so in addition to expanding our range of products we continue to invest in our customer support teams. From our offices in Europe, North America and Asia we have a world-wide team of application engineers ready to assist you in selecting the best product or solution for your needs.

If you have a requirement for a product that is not in this catalogue, please let me know. We have over 75 years' experience in the industry, and some truly brilliant design engineers, so our special products division will certainly be able to help. Our Engineering and Commercial teams specialise in working with customers to help them develop innovative and truly differentiated products and solutions that often involve our leading edge measuring, sensing and controlling technologies - over the last few years we have made significant technical breakthrough innovations in both LED lighting (truColourTM) and touch sense (truSenseTM) technologies. These uniquely special, and expertly designed products are already seen on hundreds of thousands of cars, coaches and trains as well as on consumer electronic products and domestic appliances like ovens, extractors and water filters. You can also see our products in a wide range of industrial LED lighting products and across a huge number of process and measuring equipment applications that are used in literally hundreds of industries across the world.

We are constantly developing new products and improving existing ones. There are many innovative products in the pipeline and I look forward to telling you more about them very soon. To keep in contact with us please visit www.trumeter.com and subscribe to our newsletter, or just send me an email and I will make sure we keep you updated on our new products and promotions.

Once again, I thank you for your interest in Trumeter and our products and technologies and we look forward to the opportunity to help your business succeed.

Chief Executive
John.smith@trumeter.com
GLOBAL GROUP OPERATIONS

MISSION & VALUES

Total Team Trumeter
The “Total Team Trumeter” spirit is defined by one global team, driven by the best interests of our customers, investors and employees.

Commitment to Excellence
Through continuous improvement and working with integrity, and in true partnership with our customers and suppliers, we design and manufacture innovative products and services of world class quality, delivered on time.

Sustainability
Our group will grow profitably and sustainably to ensure that we can continue to be the first choice supplier in our chosen markets for both core and special products.

QUALITY

- RoHS: All current Trumeter products are in conformity with the applicable requirements of the following Directive(s) of the European Parliament. 2011/65/EU - The Restriction of Hazardous Substances Directive (RoHS 2).
- ISO9002 accreditation since 1993
- ISO9001:2008 accreditation since May 2002
  Successful audits July 2010, March 2011, October 2011 Manufacturing, Design & Engineering, Customer Fulfilment
- ISO TS 16949 – In progress
- QPulse: Company-wide Distributed Quality Management System
- Strong sub-contractor and supplier evaluation & control process
- Regular OEM factory audits

7000 / 7000AS Series
6 digit LCD electronic totalising counter

Miniature, 6 digit LCD PCB mounted totalising counter designed for minimal power requirement. These miniature 6 digit totalising counters are suitable for either direct PCB mounting, or panel mounting with bezel supplied.

Features
- Uses the latest CMOS circuitry to achieve quiescent current consumption of less than 10µA quiescent
- 6mm black character high contrast LCD display
- Bi-directional counting (7000AS model)
- Counts pulses up to 10kHz frequency
- External reset input
- CE, UL and cUL approved

The 7000/7000AS can also be configured to count electro-mechanical contact closure events using an external resistor and capacitor to eliminate contact bounce. Similarly the supply voltage can be increased using an external resistor and 3V zener diode. See instruction leaflet for details.

7016
6 digit LCD electronic totalising counter

The 7016 comes ready for fitment & features flying leads for connection to remote contact closure input devices.

Features
- Self powered for 3-4 years using a 1.5V button cell
- 6 digit 6mm character high contrast LCD display
- Low power CMOS circuitry to achieve an expected battery life of 3 to 4 years at 20°C
- Simple to install
- Integral de-bounce circuitry
- CE, UL and cUL approved

The counter increments when contacts are opened. They may be panel mounted with the supplied bezel.

Specification
Supply Voltage: 1.5V button cell type 386 or SR43 (supplied)
Expected Battery Life: 3 - 4 years at 20°C
Display: 6 digit LCD, 6mm characters
Count Range: 999999 display rollover to 000000
Count Input: High speed - 12Hz. Low speed - 0.2Hz, contact closure. Operates on contact opening
Reset: Reset to zero on insertion of battery and external reset input
Operating Temp: 0°C to +50°C [32°F to 122°F]
Storage Temp: -10°C to +60°C [14°F to 140°F]
Material: Clear polycarbonate, black ABS bezel for panel mounting
Environmental Protection: IP40/DIN40050
Weight: 7.5g [0.3oz.]

Ordering Information
- 7016 - 6 digit LCD Self powered counter

7000 / 7000AS Series
6 digit LCD electronic totalising counter

Features
- Uses the latest CMOS circuitry to achieve quiescent current consumption of less than 10µA quiescent
- 6mm black character high contrast LCD display
- Bi-directional counting (7000AS model)
- Counts pulses up to 10kHz frequency
- External reset input
- CE, UL and cUL approved

The 7000/7000AS can also be configured to count electro-mechanical contact closure events using an external resistor and capacitor to eliminate contact bounce. Similarly the supply voltage can be increased using an external resistor and 3V zener diode. See instruction leaflet for details.

Specification
Supply Voltage: 2.6 - 3.4VDC
Current Consumption: 10µA quiescent, 20µA at 10kHz
Display: 6 digit black LCD, 6mm characters with leading zero blanking
Count Range: 999999 display rollover to 0
Count Input: 10kHz maximum, negative edge triggered, 0.7V threshold, 50µS minimum pulse length, TTL/CMOS Compatible
Reset Input: Negative edge triggered, 0.7V threshold, 15mS minimum pulse length, TTL/CMOS Compatible
Direction Input (AS model only): Add=logic 1, Subtract=logic 0 (0V)
Operating Temp: -10°C to +60°C [14°F to 140°F]
Storage Temp: -10°C to +60°C [14°F to 140°F]
Material: Clear polycarbonate. Supplied with black ABS panel mount bezel
Environmental Protection: IP40/DIN40050
Weight: 7.5g [0.3oz.]

- 7000AS - Bi-directional, Add/Subtract version of above
7110DIN
8 Digit Totalising Counter

8 digit LCD self powered totalising counter in a 24 x 48 DIN standard case. Powered by integral lithium batteries these totalising counters have a front panel reset push-button which can be enabled or disabled by a wiring connection or external contact closure.

Features
• Use of the latest CMOS circuitry achieves 10 year battery life
• 7mm black character high contrast LCD display
• Counting up to 10kHz
• Contact closure/open collector low speed count input with integral de-bounce circuitry (7110DIN model)
• Choice of mounting available, front panel with supplied bezel or rear mounting clip
• Front panel can be sealed to IP65/NEMA 4X
• UL, cUL & CE approved.

External connections are made by a standard plug-on connector with colour coded 24cm flying leads (supplied)

Specification
Supply Voltage
- Internal lithium long life battery

Display
- 8 digit black LCD, 7mm characters with leading zero blanking

Count Range
- 99999999 display rollover to 0

Manual Reset Enable (PIN 2)
- Link to COMMON (PIN 1) to enable front panel reset pushbutton

External Reset (PIN 3)
- Contact closure/open collector, negative edge triggered, 0.7V threshold, 15mS minimum closure time

Low Speed Count Input (PIN 4)
- Contact closure/open collector with integral de-bounce circuitry, 30Hz maximum, negative edge triggered, 0.7V threshold, 15mS minimum closure time

High Speed Count Input (PIN 5)
- Electronic input 10kHz maximum, negative edge triggered, 0.7V threshold 50µS minimum pulse length, TTL/CMOS Compatible

Operating Temp
- -10°C to +60°C [-14°F to 140°F]

Storage Temp
- -20°C to +60°C [-4°F to 140°F]

Environmental Protection
- IP65/NEMA 4X using gasket supplied

Mounting
- Either with clip mount supplied or two front screws with bezel supplied

Ordering Information
7110DIN - Totalising Counter

7111 Series
8 digit self powered electronic LCD counter

8 digit liquid crystal display counter, self powered with a 10 year battery life. A compact LCD counter designed for many applications, screw terminals ensures fast wiring and features including backlight (external 5VDC supply required), decimal point selection, count direction indication and 9mm high digits. High Voltage (HV) version accepts input voltages of 10-110VDC or 10-240VAC.

Features
• 9mm high contrast LCD display
• 10 year battery life
• Bi-directional counting
• Counts pulses up to 10kHz frequency
• External reset input.
• UL, CE, UL and cUL approved

Specification
Battery life
- 10 years typical at 1KHz count speed

Display
- 8 digit black LCD, 9mm characters with leading zero blanking

Count Range
- 99999999 display rollover to 0

Count Input
- 10kHz maximum, negative edge triggered, 0.7V threshold, 50µS minimum pulse length, TTL/CMOS Compatible

(HV Version)
- 10 – 240VAC ±10%, 5 – 110VDC ±10%, Opto-Isolated, maximum 10 pulses per second, minimum 50mS

Reset Input
- Negative edge triggered, 0.7V threshold, 15mS minimum pulse length, TTL/CMOS Compatible

(HV Version)
- 10 – 240VAC ±10%, 5 – 110VDC ±10%, Opto-Isolated, minimum 15mS

Direction Input
- Add=logic 1, Subtract=logic 0 (0V)

Operating Temp
- -10°C to +60°C [14°F to 140°F]

Storage Temp
- -20°C to +60°C [-4°F to 140°F]

Material
- Clear polycarbonate

Environmental Protection
- IP65 NEMA 4X

Weight
- 62g (2.2oz.)

Ordering Information
7111 - 8 Digit Self Powered Totalising Counter
7111HV - 8 Digit Self Powered Totalising Counter with High Voltage Input
**7400AS / 7401AS Series**

8 digit Electronic Totaliser

8 digit LCD bi-directional totalising counter for PCB mounting, with pushbutton reset. This PCB mount bi-directional totalising counter operates from an external 3VDC supply. It is supplied with an electrical reset. 7401AS is non-rest version.

**Features**
- 8 digit high contrast LCD characters
- Latest CMOS circuitry achieves an expected battery life of 10 years (1/2 AA 900mAH 3V lithium battery)
- Remote reset facility
- Leading zero blanking
- Add/subtract counting of pulses up to 10kHz
- Low speed contact closure input with integral de-bounce circuitry
- CE, UL and cUL approved

Inputs are provided for count, direction and external reset.

**6300 Series**

8 digit self powered electronic LCD counter

The 6300 Series with 8 LCD digits brings more features to the user than ever before. Available in single and/or multi-function units, the array of functions and options make the Model 63 suitable for a variety of applications.

A long list of features includes a programmable output, an external reset, a front panel reset enable, and programmable alert or preset capabilities. The front end of the Model 63 utilizes a high-contrast, reflective, 8-digit LCD with 0.32 inch [8mm] digits and seven icons, while at the back end, Switch (Dry Contact), Low Voltage DC, and High Voltage DC and AC Inputs are available.

**Features**
- Optional external electronic reset
- Optional front panel programming
- 3 Redi-Alerts
- Preset functionality
- Start time (available on hour meter only)
- Part numbers must be in 63XX-X5XX-0000 format to be programmable

**Specification**

| Reflective LCD Display with 8 large (8mm) digits |
| Choice of one or two inputs |
| Switch Input (No voltage) |
| Low DC Voltage (3-30VDC) <2mA |
| High Voltage (20-300VAC or 10-300VDC) <2mA |
| Internal lithium battery, 10yr typical life |
| NEMA 4/4X, 12, and IP66 rated |
| CE compliant, UL and cUL recognized |
| Operating Temperature: -10°C to +60°C [14°F to 140°F] |
| Storage Temperature: -20°C to +70°C [-4°F to 158°F] |

3400 Series
“any housing, any function”

The 3400 Series provides a large display, with 0.28” [7mm] high characters, in the industry standard housings. Units are available in 5 different housings. All models are totally sealed and are capable of submersion in 6’ [2 meters] of water. A wide operating voltage, 10-300VDC and 20-300VAC make the 3400 series versatile for all indoor and outdoor applications. All models are NEMA 4/4X, 12, & IP66 rated from the front when used with the optional gasket, and have a polarized lens which assures high visibility in an outdoor environment.

Maintenance Meters are offered with multiple “Redi-Alerts” to alert users when service is due. Models are available with front panel field programmable alerts. Not only does the display flash to get attention, but it displays a choice of 7 different .08”[2mm] maintenance icons. Users can program or specify the service interval and flash duration for each Redi-Alert.

Features
• Totally sealed from moisture and dirt
• AC or DC voltage input in the same unit
• Compact depth
• Optional Preset Count value/Hour Meter
• Optional - up to 3 Redi-Alerts/7 icons
• Fits in existing panel openings
• Always on display
• A choice of 5 housings
• A choice of reset modes
• Optional front panel programmable
• Can be programmed with starting time
• 10 year typical battery life
• CE compliant, UL and cUL recognized

Specification
Case Style
• 2-Hole Rectangular
• 3-Hole Round
• Mini Flush Rectangular
• SAE Flush Round
• Snap-In

94 Series
Large LCD Totaliser

A 6 figure, battery powered, push-button or key reset, electronic LCD totalizer, available in base mount or panel mount configuration. No external power supply is required. Large 0.50 inch (12 mm) LCD figures for fast, easy reading.

Operates at 6-240 VAC/VDC. 8 years internal lithium battery. Attractive styling and silent operation make these models equally well-suited for lab or office equipment applications.

Features
• No external power supply required
• Long life lithium battery
• Large easy reading display
• Operates at 6 to 240 VAC/VDC

Specification
• Figures: 6 LCD figures, 0.50” [12mm] high
• Reset Options: Push-button, or lock and key front
• Speed: 0–40 counts/second, (min. 12.5ms - on, 12.5ms - off)
• Input: 6-240VAC or VDC
• Mounting: Base or panel
• Terminations: (2) #22 AWG 221°F [105° C] wire leads, 8” [203mm] long
• Temp.Range: -10°C to +60°C [14°F - 140°F]
• Power Source: Internal lithium battery
• Weight: 510g [18 oz.]

18 Series
Electronic Hand Tally (ADD ONLY) or (ADD/SUBTRACT)

The E2M & E3 offer an electronic version of the popular Hand Tally counter and are available with a choice of Add only or Add/Subtract models.

Counts are input using large positive action buttons. The Add model has a single count button and the Add/Subtract model has two separate count buttons. The “+” button (green) will add a count to the total and the “-” button (red) will subtract a count from the total.

When activated, an audible “beeper” sounds every count to verify that a count has been registered. All electronic components provide a long life counter with no moving parts to wear out. The counter is manufactured from impact-resistant plastic, combining lightweight with outstanding durability.

Features
• Add or Add/Subtract models
• Beep at every count with the option of switching the sound off for silent operation
• Cannot accidentally reset or turn off; On/Off/Reset button
• must be held down for 3 seconds to reset
• Long life battery (replaceable) - typically 250 days without sound
• Large LCD display
• No mechanical parts to wear out
• Large rubber buttons for comfort of use
• Ergonomically designed for ease of use
• Carrying cord - 9.0” [229mm]
• Light weight

Specification
• Display: 4 digit LCD 0.35” [9mm] high
• Battery Operating Life: 250 days (without sound)
• Reset: Push button
• Operating Temperature: 0°C to +50°C [+32°F to +122°F]
• Weight: 29g [0.7 oz.]
• Color: Black case with blue buttons (Add Only) or green and red buttons (Add/Subtract)

HED 251
4 Digit panel mount counter 24mm X 48mm

24 X 48mm 4 digit totalising counter suitable for many OEM applications. Ideal for contact closure and reed switch signal inputs.

These miniature 4 digit totalising counters are suitable for either direct PCB mounting or panel mounting.

Features
• Uses the latest CMOS circuitry to achieve very low quiescent current consumption
• 10mm black character high contrast LCD display
• Backlit version HED251-T
• Counts pulses up to 10Hz frequency
• External reset input
• CE and RoHS compliant

Specification
Supply Voltage 1.5VDC
Display 4 digit black LCD, 10mm characters with leading zero blanking
Count Range 0-9999
Count Input Contact closure open collector input. 10Hz max, negative edge triggered, 0.7V threshold 1.8V max, 25mS min pulse width
Reset Input Negative edge triggered, 0.7V threshold, 15mS minimum pulse length, TTL/CMOS Compatible
Operating Temp -10°C to +50°C [14°F to 122°F]
Storage Temp -20°C to +70°C [-4°F to 158°F]

HED 261
8 Digit panel mount counter 24mm X 48mm

24 X 48mm 8 digit totalising counter suitable for many OEM applications. Ideal for contact closure and reed switch signal inputs. Panel mounted or PCB mounted and with high speed input 10kHz or a slow speed debounced input 30Hz.

These miniature 8 digit totalising counters are suitable for either direct PCB mounting or panel mounting.

Features
• Uses the latest CMOS circuitry to achieve very low quiescent current consumption
• 8mm black character high contrast LCD display
• Backlit version HED261-T
• Counts pulses up to 10kHz frequency
• External reset input
• CE and RoHS compliant

Specification
Supply Voltage 2.7-3.3 VDC
Display 8 digit black LCD, 8mm characters with leading zero blanking
Count Range 0-99999999
Count Input
• High speed input (pin3) 10kHz max positive edge triggered, 0.7V threshold 18V max, 50us min pulse width
• Contact closure open collector input (pin2). 30Hz max, negative edge triggered, 0.7V threshold 18V max, 15mS min pulse width
Reset Input Negative edge triggered, 0.7V threshold, 15mS minimum pulse length, TTL/CMOS Compatible
Operating Temp -10°C to +50°C [14°F to 122°F]
Storage Temp -20°C to +70°C [-4°F to 158°F]

Ordering Information
HED261-T
10 Series
Electromechanical Counter
A 6 figure general purpose, rugged, electromechanical counter, either panel or base mounted, with manual knob reset, key reset, or non-reset. Frame and housing provides rigid support for accurate alignment and trouble-free use. Distinctive numerals enhance visibility under adverse viewing conditions. UL, CE and ROHS compliant.

Features
• Panel or base mount
• Rigid support for accurate alignment
• Enhanced visibility
• Manual knob, key or thumb wheel reset

Specification
Figures 6 figures, white on black, 0.19” [5mm] high
Reset Knob, lock and key, or thumb wheel
Speed 1,000 counts/minute (min. 30ms - on, 30ms - off)
Voltage 115VAC, (+/- 10%, but not to exceed 10 volts)
Power 7.8 watts (nominal)
Mounting Base or panel
Terminations (2)#22 AWG 105°C wire leads, 8” [203mm] long
Temp. Range -5°C to +40°C [-23°F to +104°F]
Approvals UL Recognized, CE Compliant, ROHS
Weight 510 to 624g [18 to 22 oz.]

Ordering Information

P2-1006 - 115 VAC, Panel Mount, Knob Reset
P32-1026 - 115 VAC, Panel Mount, Key Reset

40 Series
Electromechanical Counter
The 40 Series is a low cost, non-reset totalizer, available with 7 figures (white on black background). A wide choice of operating voltages and mountings make this product adaptable for most applications. The 40 Series is an ideal solution for applications that require low cost and product reliability, CE and ROHS compliant.

Features
• Low cost
• Small size
• DC and AC
• Multiple mounting choices
• Voltages

Specification
Figures 7 figures, white on black, 0.12” [3 mm] high
Reset Non-reset
Speed 600 counts/minute (min. 50ms - on, 50ms - off)
Voltage 115 VAC, 5, 12 or 24 VDC (+ 10/-15% tolerance)
Power 1.4 watts AC, 1.0 watts DC (nominal)
Mounting Rear, behind the panel, snap-in, base or PCB mount
Terminations (2)#22 AWG 221°F [105°C] wire leads,10.5” [266.7mm] long
Temp. Range -5°C to +40°C [-23°F to +104°F]
Approvals UL Recognized, CE Compliant, ROHS
Weight 510 to 624g [18 to 22 oz.]

Ordering Information
P8-4017 - 24 VDC, 7 Figure, PCB Mount
R8-4017 - 24 VDC, 7 Figure, Behind Panel Mount

44 Series
Electromechanical Counter
A 6 figure, non-reset counter. Metal/plastic frame assembly ensures ruggedness while one piece cover discourages tampering. Precision molded internal gearing requires no lubrication for long, accurate count life. Applications include warranty verification, electronic game counting, coin box tallies, or wherever small size, highly visible numerals, and solid construction are critical. UL, CE and ROHS compliant.

Features
• Small size
• Highly visible numerals
• Solid construction
• Voltages
• Lead length
• Special connectors
• Extended temperature range

Specification
Figures 6 figures, white on black, 0.12” (3 mm) high
Reset None
Speed 600 counts/minute (min. 50ms - on, 50ms - off)
Voltage 115VAC, 24VDC (+/- 10%, but not to exceed 10 volts)
Power 1.5 watts (nominal)
Mounting Rear, behind the panel, base, or combination
Terminations (2) #22 AWG 221°F [105°C] wire leads, 10” [254mm] long
Temp. Range -5°C to +40°C [-23°F to +104°F]
Approvals UL Recognized, CE Compliant
Weight 71g [2.5 oz.]
Electro-Mechanical

48 Series
Electromechanical Counter
A compact, economical, 6 figure, non-reset, electromechanical counter designed for general purpose industrial and commercial counting applications. It is designed for a variety of mounting methods as required by the application. Commonly used for coin-operating equipment, photocopiers and vending machines. UL, CE and ROHS compliant.

Features
• Compact
• Non-reset
• Variety of mounting options
• Voltages

Specification
Figures 6 figures, white on black, 0.17'' [4.3mm] high
Reset None
Speed 1,000 counts/minute AC, (min. 30ms - on, 30ms - off)
1,200 counts/minute DC, (min. 25ms - on, 25ms - off)
Power 24VAC ~ 4 watts
115VAC ~ 3.5 watts
230VAC ~ 5 watts
12/24VDC ~ 2 watts
Mounting Panel or base
Terminations (2) #22 AWG 105°C wire leads, 12” [305mm] long
Operating Life Beyond 10 million counts
Temp. Range -10°C to +60°C [14°F - 140°F]
Approvals UL Recognized, CE Compliant, ROHS
Weight 99g [3.5 oz.]

Ordering Information
P2-4816 - 115 VAC, Panel Mount, Non-Reset
P8-4816 - 24 VDC, Panel Mount, Non-Reset
P9-4816 - 12 VDC, Panel Mount, Non-Reset
V2-4816 - 115 VAC, V Base Mount, Non-Reset
V3-4816 - 24 VAC, V Base Mount, Non-Reset
V8-4816 - 24 VDC, V Base Mount, Non-Reset

49 Series
Electromechanical Counter
Economically priced 4 and 6 figure push-button reset, electromechanical counter designed for use where limited space is a factor and when reliability is critical. Rugged operating mechanisms require no lubrication or maintenance. Compact size and minimum space requirements make the Model 49 ideally suited for use in control panels, business machines, and test equipment. UL, CE and ROHS compliant.

Features
• Compact
• No maintenance
• Quick reset
• Voltages
• Extended temperatures
• 4 or 6 figure

Specification
Figures 4 or 6 figures, white on black, 0.16” [4mm] high
Reset Push-button
Speed 600 counts/minute (min. 50ms - on, 50ms - off)
Voltages 115VAC, 24VDC, (+/-10%, but not to exceed 10 volts)
Power AC: 115VAC ~ 3 watts
DC: 12/24VDC ~ 2 watts
Mounting Panel, base, or bail
Terminations (2) #22 AWG 105°C wire leads, 10” [254mm] long
Operating Life Beyond 100 million counts
Temp. Range -10°C to +60°C [14°F - 140°F]
Approvals UL Recognized, CE Compliant
Weight 113g [4 oz.] (4 fig.), 142g [5 oz.] (6 fig.)

58 Series
Electromechanical Predetermining Counter
Designed for use in a wide variety of production, batching and packaging applications. These 4 or 6 figure electromechanical predetermining counters activate a SPDT switch at the preset count. Convenient preset controls and built in manual reset with guard are standard. Its surge absorbing circuit protects against damage due to voltage spikes. Heavy duty bail mount secures counter in place.

Features
• Small size
• Highly visible numerals
• Solid construction
• Voltages
• Lead length
• Special connectors
• Extended temperature range

Specification
Figures 4 or 6 figures, white on black, 0.16” high
Reset Manual, or electric reset (100 - 500ms - on, 1min - off)
Speed 600 counts/minute (min. 50ms - on, 50ms - off)
Voltages 115VAC, 24VDC (+/-10%, but not to exceed 10 volts)
Power 5.5 watts count, 20 watts reset (nominal)
Mounting Bail
Terminations Screw type
Operating Life Beyond 100 million counts
Temp. Range -10°C to +60°C [14°F - 140°F]
Output Switch SPDT 5 Amp. @ 250 VAC
Resistive
Output Duration Until reset
Approvals UL Recognized, CE Compliant
Weight 283g [10 oz.]

### 3602 Series

**Mechanical Totalising Counter**

This unit counts revolutions on many different types of production machinery. Robustly constructed for continuous operation at high speeds with the main shaft running in double oil impregnated bearings to ensure accurate, long-term, trouble-free service. Supplied double drive with wing bush, customer configurable reset.

#### Features
- 6 digit 6.4mm (0.25in) readout
- Up to 3000 counts per minute with 1:1 gear ratio
- 1:1, 1:10, 2:1, 3:1, 4:1 gearings as standard
- Front viewing
- Reset to zero
- Reset by lever
- Customer Configurable Reset

#### Specification

**Display**
- White on black, decimals black on white 0.25in (6.4mm) figures

**Base Material**
- Stainless Steel

**Cover Material**
- Grey ABS plastic

**Drive Shaft Diameter**
- 0.275 inch (7mm) diameter

**Gearing**
- 1:1, 1:10, 2:1, 3:1, 4:1 as standard. Others on application

**Bearings**
- Bronze, oil impregnated for life

**Operating Torque**
- 180g.cm (2.5oz.in) at 1:1 gearing

**Maximum Shaft Speed**
- 3000 RPM

**Maximum Count Speed**
- 3000 CPM

**Operating Temp**
- -10°C to +50°C [14°F to 122°F]

**Storage Temp**
- -20°C to +50°C [-4°F to 122°F]

**Environmental Protection**
- IP40

**Nett Weight**
- 280g

20 Series
Medium Duty Stroke Counter

A highly versatile, 5 figure stroke counter. Numbers are large and distinctive for easy viewing even when above or below eye level. Ruggedly built for years of trouble-free use. An excellent choice for counting parts produced.

Features
• Durable
• Large figures
• Reliable
• Large reset knob

Specification
Figures 5 figures, white on black, 0.19'' [5mm] high
Reset Knob
Speed 500 counts/minute
Rotation Top-coming or top-going
Count Stroke 49° Min. - 60° Max.
Shaft Extension Right-hand
Shaft Diameter 0.125'' [3.2mm]
Operating Life Beyond 10 million counts
Temp. Range -10°C to +60°C [14°F - 140°F]
Weight 43g [1.5 oz.]

Ordering Information
1-2035 - Right Hand, Top Coming

22 Series
Rotary Counter

A compact, 5 figure, rotary counter, indicating 10 counts/revolution. Design and compact size make it ideally suited for office and test equipment, coin counting and other direct reading instruments.

Features
• Compact size
• 5 figures
• Long life
• Large reset knob

Specification
Figures 5 figures, white on black, 0.19'' [5mm] high
Reset Knob
Speed 500 revolutions/minute
Rotation Top-coming or top-going
Shaft Extension Right-hand or left-hand
Shaft Diameter 0.125'' [3.2mm]
Ratio 10 counts/revolution
Operating Life Beyond 10 million counts
Temp. Range -10°C to +60°C [14°F - 140°F]
Weight 37g [1.3 oz.]

Ordering Information
7-2215 - Left Hand, Top Coming, Add/Subtracts
7-2235 - Right Hand, Top Coming, Add/Subtracts
7-2245 - Right Hand, Top Going, Add/Subtracts

29 Series
Mechanical Stroke Counter

A 6 figure, general purpose heavy duty industrial stroke counter designed for high count rates and continuous operation even under the most adverse operating conditions. Corrosion resistant material and finishes. Large, easy-to-read numbers.

Features
• Heavy duty
• High count rates
• Corrosion resistant
• Special mounting bases
• Weatherized versions
• Spring and Lever Kit (200700-010S)

Specification
Figures 6 figures, white on black, 0.30'' [7.6mm] high
Reset Knob
Speed 1,000 counts/minute
Rotation Top-coming
Count Stroke 40° Min. - 70° Max.
Shaft Extension Right-hand
Shaft Diameter 0.25'' [6.4mm]
Operating Life Beyond 100 million counts
Temp. Range -10°C to +60°C [14°F - 140°F]
Weight 510g [18 oz.]

Ordering Information
1-2936 - Right Hand, Top Coming Stroke
V1-2936 - Right Hand, Top Coming Stroke, Large Base
**46 Series**

Mechanical Stroke Counter

These 5 figure stroke counters are especially designed for limited space and high count life applications. The advanced drive system translates into exceptionally high operating speeds, extended operating life, for fast and accurate readings. Ideal for copiers, printing presses, cut-off machines, and piece-part counting applications. Also available with a thumb lever for use as a tally counter.

**Features**
- Compact size
- Reliability
- Low cost
- Special levers
- Replacement lever and spring (10007-009S)
- Special metal lever (10007-001)

**750 Series**

Revolution Counter

These rugged revolution counters are completely sealed, tamper resistant, and maintenance-free. They can be mounted on a rotating shaft or wheel. Adds in either direction, and records revolutions, miles, kilometers, or acres. They are used on material handling equipment, farm machinery, rapid transit vehicles, street sweepers, golf carts, and construction equipment.

**Features**
- Figures: 7 figures, 0.19” [5mm] high
- Temp. Range: -45°C to +82°C [-50°F to +180°F] (Non Condensating)
- Weight: 0.7kg [1.5 Lbs.]  

**Ordering Information**

750-0156 - 798 Revs Per Acre
750-0267 - 27 In Dia *Miles
750-0002 - Reading X10-Tot Revs
750-0114 - Reading X100=Rev
**7922 Electronic Predetermining Counter**

6 digit supertwist LCD programmable preset counter with prescaler, quadrature input and EEPROM data storage in an IP65 (NEMA4X) DIN case.

This versatile counter with prescaling can be configured for quadrature or unidirectional inputs, dual preset or single preset with batch preset. Reset can be automatic, manual or electronic with a sink (NPN) or source (PNP) input.

The display is a supertwist high visibility backlit LCD which can be viewed from any angle. The count is on the main display and the preset value (or batch preset) is on the lower display.

**Features**
- Simple programming via menu driven display
- Quadrature input
- High visibility supertwist LCD display can be viewed from any angle
- Backlight programmable ON, OFF or AUTO
- 40 years data retention with no power
- Programmable decimal point up to 3 places
- Operates from 85-265VAC or 10-26VDC
- 12VDC output to drive a sensor (when AC powered)
- Opto-isolated inputs
- Wide range of prescaling
- Output relay contacts rated at 5A
- Input can be set to latch or pulse with programmable pulse duration
- Environmental protection to IP65
- Standard DIN housing
- CE, UL and cUL approved

All programming, reset and presetting can be carried out from the front panel. When powered from an AC supply, there is a 12VDC output to drive a sensor. The key below each digit sets the P1 or P2 (or batch) preset value on the lower display. The red reset key resets the display count to zero or P1 (according to programming). In normal operation the colon illuminates whenever relay 1 is active. In P2 Set mode the colon illuminates whenever relay 2 is active.

**Specification**
- **Supply Voltage**: 85 - 265VAC or 10 - 26VDC at 100mA
- **Auxiliary Output Supply**: 12VDC ± 10% @ 100mA (when operating from AC supply)
- **Display**:
  - 2 rows of 6 digits, supertwist black on silver LCD with yellow/green LED backlight. Upper row
  - High visibility 7mm (0.28in) high indicates count, lower row 4mm (0.16in) high indicates P1/P2 preset point. Also Relay 1 Active annunciator
- **Backlight Control**: Programmable to Always ON, Always OFF or AUTO (ON for 30s following last keypress)
- **Preset Points**: Two user selectable preset points 1 - 999999
- **Count Inputs**:
  - Voltage Opto-isolated 10 - 30VDC
  - Quadrature and unidirectional
  - Input A (quadrature and uni-dir. count) NPN or PNP
  - Input B (quadrature and UP/DOWN in uni-dir. mode)
  - Maximum input frequency 10kHz
  - Duty cycle Maximum 60:40 or 40:60 mark/space ratio
  - Prescaler Multiply 0.00001 - 9.99999, default 1.00000
  - Divide 1 - 99999, default 00001
- **Manual Reset**: Can be disabled on installation or remotely reset
- **Remote Reset**: Contact closure or pulse (15 ms response time)
- **Automatic Reset**: Programmable for automatic or Manual/Remote reset
- **Data retention**: 40 years minimum
- **Contact Connection**: Both individually programmable as NO or NC SPST
- **Contact Rating**: 5A 260VAC/30VDC 1300VA/150W
- **Operating Temp**: -10°C to +60°C [-14°F to 140°F]
- **Storage Temp**: -20°C to +70°C [-4°F to 158°F]
- **Environmental Protection**: IP65 (NEMA4X) when properly installed using the sealing gasket supplied (without bezel)

**Ordering Information**
7922 - 6 digit electronic predetermining counter
7932 Electronic Predetermining Counter/Timer

6 digit super twist LCD programmable preset counter/timer with prescaler and EEPROM data storage in an IP65 (NEMA 4X) DIN case.

This versatile count up or count down predetermining counter/timer with prescaler has a wide range of innovative and attractive features. Designed with imagination and built to the highest standards it offers both counting and timing functions in one unit.

Features
- Simple programming via menu driven display
- High visibility super twist LCD display can be viewed from any angle
- Backlight programmable ON, OFF or AUTO
- 40 years data retention with no power
- Programmable decimal point up to 3 places
- Operates from 85-265VAC or 10-26VDC
- 12VDC output to drive a sensor (when AC powered)
- Opto-isolated inputs
- Wide range of prescaling
- Output relay contacts rated at 5A
- Output can be set to latch or pulse with programmable pulse duration
- Environmental protection to IP65
- Standard DIN housing
- CE, UL and cUL approved

The count inputs are opto-isolated and can be sink (NPN) or source (PNP). The count is on the main display and the preset value is on the lower display. Reset can be remote, manual or automatic with a manual over-ride option. All programming, reset and presetting can be carried out from the front panel although the keys can be remotely disabled from the rear of the unit.

Please note the electrical connections are different to the previous version (7931).

Ordering Information

7932 - 6 digit Predetermining counter/timer
**Liberty 878X Series**

**Predetermining Counter**

6 digit predetermining counter with a 5 digit rate meter.

The 878X is capable of displaying and controlling almost any count application. It has a dual relay output, which can be used to signal or control external devices or processes.

**Features**

- 14.2mm character high visibility LED display
- 1/8 DIN (96mmX48mm) bezel
- Simple user programming
- Display scaleable to show engineering units
- Programme lock out facility
- AC and DC powered models available
- Analogue re transmission option
- RS485 communications option
- CE approved. (UL and cUL pending)

**Specification**

- **Power Supply**
  - AC Powered 85-265VAC 47-63Hz 20VA
  - DC Powered 9-30VDC 12VA
- **Sensor supply**
  - 12VDC ±12% 75mA max
- **Display**
  - 14.2 mm character high visibility LED Display
- **Signal Input**
  - Sink(NPN) or Source(PNP) DIP switch selectable
- **Threshold**
  - High 3.5 to 28VDC
  - Low 0-1.9VDC for single ended signals
- **Magnetic pick up range**
  - 200mV pk-pk to 65VRMS into 34.9 kΩ load
- **Slow response**
  - 200Hz max
- **Fast response**
  - 8.25kHz A or B, 3Khz A and B, QuadX1 and QuadX2
  - 3.25kHz, QuadX4 2KHz
- **Control Inputs**
  - Sink(NPN) only (4.75kΩ to +5VDC) internal load
- **Threshold**
  - High 3.5 to 28VDC
  - Low 0-1.9VDC
- **Response time**
  - 25msecs max (5V signal)

**Optional Outputs**

- **Relay output**
  - 2 SPCO (Form C) relays. Contact rating SA 250VAC or 30VDC @ unity power factor
- **Analogue re transmission**
  - 4-20mA (<750Ω load) and 0-10VDC (> 2500Ω load)
- **RS485 Serial Communication**
  - Baud rate 1200, 2400, 4800, 9600 or 19,200
  - programmable Parity Even, odd or no parity
- **Address**
  - 00-99
- **Data Retention**
  - EEPROM 100years duration
- **Operating Temperature**
  - 0°C to +50°C [32°F to 122°F]
- **Storage Temperature**
  - -20°C to +70°C [-4°F to 158°F]
- **Humidity**
  - 0 to 85%RH non condensing
- **Vibration**
  - 2.5g’s 30-200Hz
- **Shock**
  - 30g’s
- **Front Panel Protection**
  - IP65 (NEMA4X) when properly mounted using gasket supplied
- **Approvals**
  - CE approved

**Ordering Information**

- **8780 DC Powered Predetermining Counter**
- **8781 AC Powered Predetermining Counter**

Options – (Select & add to code 8780-?)

- 0 for No Options
- 1 for Dual Relay
- 3 for Dual Relay & Analogue Output
- 5 for Dual Relay & RS485 Comms
- 7 for Dual Relay, Analogue Output & RS485 Comms

**e.g. 8780-1 = DC Powered Predetermining Counter with Dual Relay Option Board Fitted**
The versatile 9100 multi-function instrument is a multi-preset, totalising counter/ratemeter with backlit display.

Simultaneous operation in different modes is now possible with this recent development of the highly successful 9100 multi-function counter. Additional enhancements include 3-line display, more keys, enhanced programming, EEPROM memory avoiding the need for a battery, and on-screen programming prompts in four languages.

**Features**
- Simultaneously maintains any 3 of the following: Count preset, count pre warn, batch preset, overspeed, underspeed condition and displays count, total and speed.
- Counts in any of 7 modes: A-B, A+B, A/B, count and direction and quadrature x1, x2 & x4.
- EEPROM retains program and data for 40 years with no power.
- 3 line Supertwist LCD display viewable from any angle.
- Easily programmed in English, German, French or Spanish using simple menu structure and 10-key keypad.
- Counting continues while rate measurement is in progress.
- Accurate enough for position sensing and robotic control.
- Displayed values, choice of engineering units and 12 characters of user programmable text can be printed directly from the IBM/Epson compatible serial printer port.
- Can be powered from 85-265VAC for world wide use.
- Multiplying and dividing prescalers enable display directly in the required (engineering) units.
- Manual, remote and automatic resets available.
- Remote inhibit and remote keyboard disable.
- Fast electronic or slow contact closure inputs, all with optical isolation. Contact closure inputs are debounced.
- Auxiliary 12VDC 100mA power output to power sensor.
- Environmental protection to IP65.
- CE approved.

The 9100 carries out rate measurement, batch counting and totalising simultaneously. Rate mode is signified by an R appearing at the top left hand corner of the display and counting carries on in the background. The first line of the display shows pulses per minute (PPM) unless a prescaler is in use.

**Specification**
- Power Supply 85 - 265VAC.
- Auxiliary Output 12VDC ±10% 100mA for powering sensors.
- Display 3 line high contrast supertwist backlit.
- Programmable for pulsed, latched or disabled.
- Control Outputs 3 SPST relays. Contacts 5A 260VAC, 220VDC 1300VA/150W.
- Rate Input: Input A only. 8 - 30VDC. Maximum 600k PPM (10kHz), minimum 4.7 PPM (0.078Hz ie one pulse every 12.8s).
- Control Inputs: External reset, count inhibit, keyboard disable. Maximum 30Hz contact closure or solid state input. 8 - 30VDC opto-isolated.
- Manual Reset: Can be disabled on installation or remotely reset.
- Remote Reset: Contact closure or pulse (maximum 30Hz).
- Automatic Reset: Program to reset to zero on reaching preset 3 or vice versa.
- Control Outputs 3 SPST relays. Contacts 5A 260VAC, 220VDC 1300VA/150W.
- Programmable for pulsed, latched or disabled.
- Front Panel Sealing IP65 when properly mounted using gasket supplied.
- Operating Temp. -10°C to +70°C [-14°F to 158°F].
- Storage Temp. -20°C to +70°C [-4°F to 158°F].
- Relative Humidity 85% at 25°C non-condensing.

8 digit self powered LCD electronic timer

8 digit liquid crystal display timer, self powered with a 10 year battery life. A compact LCD timer designed for many applications, screw terminals ensure fast wiring. Features include backlighting (external 5VDC supply required), 4 timing modes, timing direction indication and 9mm high digits. High Voltage (HV) version accepts input voltages of 10-110VDC or 10-240VAC.

**Features**

- 9mm high contrast LCD display
- 10 year battery life
- Minimum contact closure time 1 second
- 4 timing modes
- Times up or down
- External reset input
- CE, UL and cUL approved

**Specification**

- **Battery life**: 10 years typical
- **Display**: 8 digit black LCD, 9mm characters with leading zero blanking
- **Timing Ranges**: Seconds, minutes and seconds; hours and 1/100ths and hours and minutes
- **Timing Input**: Sink signal (NPN) 18VDC maximum threshold 1VDC negative edge trigger (HV Version)
- **Direction Input**: Up not connected, down connected to common
- **Operating Temp**: -10°C to +60°C [14°F to 140°F]
- **Storage Temp**: -20°C to +60°C [-4°F to 140°F]
- **Material**: Clear polycarbonate
- **Environmental Protection**: IP65 / NEMA 4X
- **Weight**: 62g [2.2oz.]

**3410 Series**

*any housing, any function*

The Trumeter 3400 Series provides a large display, with 0.28” [7mm] high characters, in the industry standard housings. Units are available in 5 different housings. All models are totally sealed and are capable of submersion in 6’ [2 meters] of water. A wide operating voltage, 10-300VDC and 20-300VAC. All models are NEMA 4/4X, 12, & IP66 rated when used with the optional gasket and have a polarized lens which assures high visibility in an outdoor environment.

Maintenance Meters are offered with multiple “Redi-Alerts” to alert users when service is due. Models are available with front panel field programmable alerts. Not only does the display flash to get attention, but it displays a choice of 7 different .08”[2mm] maintenance icons. Models are available as a Preset Counter/Timer with a MOSFET output for the actuation of external alarms or indicator lamps. Users can program or specify the service interval and flash duration for each Redi-Alert.

**Features**

- Totally sealed from moisture and dirt
- AC or DC voltage input in the same unit
- Compact depth
- Optional programmable output thresholds (MOSFET)
- Optional preset count value/Hour Meter
- Optional - up to 3 Redi-Alerts/7 icons
- Fits in existing panel openings
- Always on display
- A choice of 5 housings
- A choice of reset modes
- Optional front panel programmable
- Optional preset functions with output
- Can be programmed with starting time
- 10 years typical
- CE, UL and cUL approved

**Specification**

- **Case Style**: Front Panel
- **Programmability - Optional**:
  - **Input**: 10-300VDC or 20 to 300VAC <2mA
  - **Switch/Dry Contact**
- **Reset - Optional**
  - **Remote (Dry Contact/Switch)** - Part Numbers end in -X010
  - **Manual - Part Numbers end in -X070**
  - **Non-Reset - Part Numbers end in -X000**
- **Temperature**: -10°C to +60°C [14°F - 140°F]

6320 Series
8 digit self powered electronic LCD hour meter

The Model 6320 Series with 8 LCD digits brings more features to the user than ever before. Available in single and/or multi-function units, the array of functions and options make the 6320 series suitable for a variety of applications.

A long list of features includes a programmable output, an external reset, a front panel reset enable, and programmable alert or preset capabilities. The front end of the Model 63 utilizes a high-contrast, reflective, 8-digit LCD with 0.32 inch [8mm] digits and seven icons, while at the back end, Switch (Dry Contact), Low Voltage DC, and High Voltage DC and AC Inputs are available.

Features
- Optional external electronic reset
- Optional front panel programming - 3 Redi-Alerts
- Preset functionality
- Start time (available on hour meter only)
- Part numbers must be in 63XX-X5XX-0000 format to be programmable

Specification
- Reflective LCD Display with 8 large (8mm) digits
- Choice of one or two inputs - Switch Input (No voltage)
- Low DC Voltage (3-30VDC) <2mA
- High Voltage (20-300VAC or 10-300VDC) <2mA
- 10 years typical battery
- NEMA 4/4X, 12, and IP66 rated
- EMC Compliant to EN61326:2001 for industrial environments
- European WEEE & RoHS Compliant
- Operating Temperature: -10°C to +60°C [14°F to 140°F]
- Storage Temperature: -20°C to +70°C [-4°F to 158°F]
- CE compliant, UL and cUL recognized

720-6300
High Voltage AC LCD Hour Meter

The Trumeter Model 720-6300 Electronic Hour Meter offers a large 8 digit LCD display, (9999999.9) 0.32” [8mm] high, with an input operating voltage of 85-500VAC. The front of the unit is totally sealed, and the Hour Meter is housed in a rugged steel enclosure that is interchangeable with the Redington Model 720 Electro Mechanical Hour Meters. The wide operating voltage makes this product ideal for almost any application.

Features
- Operating voltage 85-500VAC
- Rugged steel housing
- Lithium battery
- Quartz accuracy (better than 0.01%)•
- Popular 3-hole mounting
- Gasket (721-0004)

Specification
- Display Large 8 digit LCD (9999999.9), 0.32” [8mm] high
- Reset Non-reset
- Voltage 85-500VAC 50/60Hz
- Hour Meter Memory Self-powered (internal lithium battery)
- Termination Wire leads 6” [152mm]
- Mounting Panel (3-Hole)
- Temp. Range - Operating -10°C to +60°C [14°F - 140°F]
- Temp. Range - Storage -20°C to +60°C [-4°F to 140°F]
- Humidity 0 to 95% RH, non-condensing, front totally sealed
- Vibration 10 to 80 Hz, 0.06 double amplitude
- Shock 50G
- Dielectric 1000VAC 50/60Hz for 1 minute
- Accuracy Quartz accuracy (better than 0.01%)
- Weight 142g [5.0 oz.]

Ordering Information
720-6300 - 85-500 VAC, 3-Hole Round, LCD Hour Meter, Non-Reset
**710 Series**

**Electromechanical Hour Meter**

The 710 Series AC hour meters and minute meters are widely used in panel applications where number size and visibility are critical. Its tough, Lexan bezel and distinctive styling enhance appearance and durability. UL, CE and ROHS compliant.

**Features**
- Large figures
- Tough, Lexan case
- Non-reset
- Bracket mount
- Mounting bracket (721-0003)
- Heavy duty splash proof kit (721-0018)
- Gasket (721-0004)

**Ordering Information**
710-0001 - 115 VAC, 60 HZ, 99999.9 HRS, Non-Reset
710-0002 - 115 VAC, 60 HZ, 99999.9 HRS, Non-Reset
710-0003 - 230 VAC, 60 HZ, 99999.9 HRS, Non-Reset
710-0006 - 24 VAC, 60 HZ, 99999.9 HRS, Non-Reset

**Specification**
- Figures: 6 figure, 99999.9 (non-reset), 0.19” [5mm] high
- Reset: Non-reset
- Voltages: 24, 115 or 230VAC, (+/-10%), 60 Hz.
- Power: 3 watts (nominal)
- Mounting: Panel (3-hole)
- Terminations: 8” [203.2mm] wire leads or terminal block
- Operating Life: Beyond 50 million counts
- Temp. Range: -10°C to +60°C [14°F - 140°F]
- Approvals: UL Recognized, CE Compliant, ROHS
- Weight: 170g [6 oz.]

**711 Series**

**AC Electromechanical Hour Meter**

The Redington 711 Series provides a family of compact 7 figure, AC Hour Meters. Models are available in the standard industry housings, 2- Hole rectangular, flush-round and flush-rectangular. A choice of two rectangular panel cutouts are offered 1.45” X 0.95” [36.8mm X 24.1mm] or 1.45” X 0.87” [36.8mm X 2.1mm]. The round meter has a panel cutout of 1.99” [50.5mm].

**Features**
- 7 figure, 99999.99
- Various voltage inputs
- Quartz accuracy (DC)
- Large figures, 0.14” [3.6mm]

**Ordering Information**
711-0109 - 115VAC (+/-10%), 60Hz.
711-0113 - 115/60, Flush 1.45x87, Screw Terminal

720-0011 - 115 VAC, 99999.9 HR, wires, Stirrup Mount
### 722 Series
**Totally Sealed AC Hour Meter**

The Redington 722 Series provides an AC Hour Meter with an operating range of 90-264VAC 50/60 Hz. You no longer require two separate meters, one for 115VAC and one for 230VAC. Models are available in the standard industry housings. Its quartz time base insures accurate long-term time keeping. The Totally Sealed case protects against the environment and provides years of reliable service. All applicable models are NEMA 4X,12 rated when mounted with optional gasket.

#### Features
- Operating voltage 90-264VAC 50/60Hz
- Totally Sealed
- 6 figure, 99999.9
- Quartz accuracy
- Minimum 36 second on-time for event capture
- UL/cUL Recognized, CE & RoHS Compliant

#### Specification
- **Frequency**: 50/60 Hz
- **Power**: 1 watt max.
- **Mounting**: Clip or Mounting Holes
- **Terminations**: 1/4” [6.3mm] spade terminals
- **Accuracy**: ±0.2% over entire range
- **Case Material**: Black Polymer
- **Lens Material**: Polymer
- **Agency Approvals**: UL/cUL Recognized, CE & RoHS Compliant, SAE & NEMA 4X, 12 Compliant
- **Environmental**: Totally Sealed
- **Front Panel**: NEMA 4A, 12 rated with optional gasket
- **Temperature**: -10°C to +60°C [14°F - 140°F]
- **Humidity**: 95% (SAE J1378)
- **Shock**: 55g @ 9-13ms (SAE J1378)
- **Vibration**: 10-80 Hz. 20g max. (SAE J1378)

#### Ordering Information
- 722-0001 - 90-264 VAC, 50-60, 2-Hole
- 722-0002 - 90-264 VAC, 50/60, Flush Rectangular
- 722-0003 - 90-264 VAC, 50/60, Flush Round
- 722-0004 - 90-264 VAC, 50/60, 3-Hole Round
- 722-0030 - 90-264 VAC, 50/60, Square

### 731 Series
**DC Quartz Hour Meter**

The Redington 731 Series provides a family of compact 7 figure, DC Hour Meters. Models are available in the standard industry housings, 2-Hole rectangular, flush-round and flush rectangular. DC Models are quartz controlled for high reliability and accuracy.

#### Features
- 7 figure, 99999.9
- Quartz accuracy
- Large figures, 0.14” [3.6mm]
- CE Compliant, ROHS
- UL/cUL Recognized

#### Specification
- **Reset**: Non-reset
- **Voltages**: 50 or 60 Hz, 10-28VDC
- **Power**: 0.4 watts
- **Mounting**: Clip or mounting holes
- **Terminations**: 1/4” [6.3mm] spade terminals
- **Accuracy**: 0.01%
- **Case Material**: Black polymer
- **Weight**: 35g [1.2oz.]

#### Ordering Information
- 731-0040 - 12-24 VDC, 2-Hole
- 731-0046 - 10-80 VDC, Bezel, 3-Hole Round, Screw Terminal

### 732 Series
**Totally Sealed DC Hour Meter**

The Redington 732 Series provides an DC Hour Meter with an operating range of 10-80VDC. Models are protected for two times battery voltage and/or reverse polarity. Models are available in the standard industry housings. Its quartz time base insures accurate long-term time keeping. The Totally Sealed case protects against the environment and provides years of reliable service. All applicable models are NEMA 4X,12 rated when mounted with optional gasket.

#### Features
- Operating voltage 10-80VDC
- Totally Sealed
- 6 Figure, 99999.9 Quartz accuracy
- Wire Leads Gasket kit (for NEMA 4X, 12 rating)
- Terminals up, down, straight
- Adapter bezels for various panels
- UL/cUL Recognized, CE & RoHS Compliant, SAE & NEMA

#### Specification
- **Power**: 1 watt max.
- **Mounting**: Clip or Mounting Holes
- **Terminations**: 1/4” [6.3mm] spade terminals
- **Weight**: 57g [~2 oz.]
- **Accuracy**: ±0.2% over entire range
- **Case Material**: Black Polymer
- **Lens Material**: Polymer
- **Agency Approvals**: UL/cUL Recognized, CE & RoHS Compliant, SAE & NEMA 4X, 12 Compliant
- **Environmental**: Totally Sealed
- **Front Panel**: NEMA 4A, 12 rated with optional gasket
- **Temperature**: -10°C to +60°C [14°F - 140°F]
- **Humidity**: 95% (SAE J1378)
- **Shock**: 55g @ 9-13ms (SAE J1378)
- **Vibration**: 10-80 Hz. 20g max. (SAE J1378)

#### Ordering Information
- 732-0001 - 10-80 VDC, 3-Hole Round
- 732-0002 - 10-80 VDC, Flush Rectangular
- 732-0003 - 10-80 VDC, Flush Round
- 732-0004 - 10-80 VDC, 2-Hole
- 732-0030 - 10-80 VDC, Square
- 732-0013 - 10-80 VDC, Round Cup
- 732-0014 - 10-80 VDC, Cup Bracket
- 732-0023 - 10-80 VDC, Stirrup Mount
6 digit super twist LCD programmable preset counter/timer with prescaler and EEPROM data storage in an IP65 DIN case.

This versatile count up or count down predetermining counter/timer with prescaler has a wide range of innovative and attractive features. Designed with imagination and built to the highest standards it offers both counting and timing functions in one unit.

Features
- Simple programming via menu driven display
- High visibility super twist LCD display can be viewed from any angle
- Backlight programmable ON, OFF or AUTO
- 40 years data retention with no power
- Programmable decimal point up to 3 places
- 40 years data retention with no power
- Opto-isolated inputs
- Wide range of prescaling
- Output relay contacts rated at 5A
- Output can be set to latch or pulse with programmable pulse duration
- Environmental protection to IP65
- Standard DIN housing
- CE, UL and cUL approved

The count inputs are opto-isolated and can be sink (NPN) or source (PNP).

The count is on the main display and the preset value is on the lower display. All programming, reset and presetting can be carried out from the front panel although the keys can be remotely disabled from the rear of the unit.

Please note the electrical connections are different to the previous version (7931).

Specs
- Supply Voltage: 85 - 265VAC or 10 - 26VDC at 100mA
- Auxiliary Output: 12VDC ± 10% @ 100mA (when operating from AC supply)
- Display: 2 rows of 6 digits, super twist black on silver LCD with yellow/green LED backlight. Upper row 7mm (0.28in) high indicates count, lower row 4mm (0.16in) high indicates P1 preset point
- Also Relay Active annunciator
- Backlight Control: Programmable to Always ON, Always OFF or AUTO (ON for 30s following last keypress)
- Preset Points: User selectable preset point 1 - 999999
- Count Inputs: High Speed NPN/PNP
- Opto-isolated 10 - 30VDC. Maximum input frequency 10kHz
- Low Speed
- Opto-isolated 12 - 260VAC/DC. Maximum input frequency 30Hz
- Prescaler: Multiply 0.00001 - 9.99999, default 1.00000
- Divide 1 - 99999, default 00001
- Manual Reset: Can be disabled on installation or remotely
- Remote Reset: Contact closure or pulse (15 ms response time)
- Automatic Reset: Programmable for automatic or Manual/Remote reset
- Data Retention: 40 years minimum
- Output Relay: Contact Connection SPDT
- Contact Rating 5A 260 VAC 30 VDC 1300 VA/150 W
- Operating Temp
- -10°C to +60°C [14°F to 140°F]
- Storage Temp
- -20°C to +70°C [-4°F to 158°F]
- Environmental Protection: IP65 when properly installed using the sealing gasket supplied (without bezel)

Rate Meter & Process Time Indicator

5 digit rate meter and process time indicator.
Suitable for a wide range of pulse inputs such as magnetic pick-ups, proximity sensors, photoelectric sensors and flowmeters. The 877X is a versatile unit suitable for many speed or process time indication and control applications.

Features
- 14.2mm character high visibility LED display.
- 1/8 DIN (96mmx48mm) bezel.
- Fully programmable.
- Programmable display update time 0.1 to 99.9 seconds.
- Display scaleable to show engineering units.
- (TAU) process time indication.
- Programme lock out facility.
- AC and DC powered models available.
- Analogue re transmission option.
- Dual relay output option.
- RS485 communications option.

Thresholds
- High 3.5 to 28VDC
- Low 0-1.9VDC

Response Time
- 25msecs max (5V signal)

Outputs
- Relay output:
  - 2 SPCO (Form C) relays
- Contact ratings 5A 250VAC or 30VDC @ unity power factor

Data Retention
- EEPROM 100years duration

Operating Temperature
- 0°C to +50°C [32°F to 122°F]

Storage Temperature
- -20°C to +70°C [-4°F to 158°F]

Humidity
- 0 to 85%RH non condensing

Vibration
- 2.5g’s 30-200Hz

Shock
- 30g’s

Front Panel Protection
- IP65 when properly mounted using gasket supplied

Approvals
- CE approved

Specification

Power Supply
- AC Powered 85-265VAC 47-63Hz 20VA
- DC Powered 9-30VDC 12VA

Sensor supply
- 12VDC ± 12% 75mA max

Display
- 14.2 mm character high visibility LED Display

Signal Input
- Sink or Source DIP switch selectable

Thresholds
- High 3.5 to 28VDC
- Low 0-1.9VDC for single ended signals

Magnetic Pick Up Range
- 200mV pk-pk to 65VRMS into 34.9 kΩ load

Frequency Response
- 200Hz max, electronic signals 10kHz max (5V signals)

Programme Enable Input
- Sink only (4.75kΩ to +5VDC) Internal load

Ordering Information
- 8770 DC Powered Ratemeter / Process Time Indicator
- 8771 AC Powered Ratemeter / Process Time Indicator

Options – (Select & add to code 8770-?)
- 0 for No Options
- 1 for Dual Relay
- 2 for Analogue Output
- 3 for Dual Relay & Analogue Output
- 5 for Dual Relay & RS485 Comms
- 7 for Dual Relay, Analogue Output & RS485 Comms

e.g. 8770-1 = DC Ratemeter / Process Timer with Dual Relay Option Board Fitted
The 9100 multi-function instrument is a multi-preset, totalising counter / ratemeter with backlight display.

Features
- Simultaneously maintains any 3 of the following: Count preset, count pre warn, batch preset, overspeed, underspeed condition and displays count, total and speed
- Counts in any of 7 modes: A-B, A+B, A/B, count and direction and quadrature x1, x2 & x4
- EEPROM retains program and data for 40 years with no power
- 3 line Supertwist LCD display viewable from any angle
- Easily programmed in English, German, French or Spanish using simple menu structure and 10-key keypad
- Counting continues while rate measurement is in progress
- Accurate enough for position sensing and robotic control
- Displayed values, choice of engineering units and 12 characters of user programmable text can be printed directly from the IBM/Epson compatible serial printer port
- Can be powered from 85-265VAC for world wide use
- Multiplying and dividing prescalers enable display directly in the required (engineering) units
- Manual, remote and automatic resets available
- Remote inhibit and remote keyboard disable
- Fast electronic or slow contact closure inputs, all with optical isolation. Contact closure inputs are debounced
- Auxiliary 12VDC 100mA power output to power sensor
- Environmental protection to IP65/NEMA4X
- CE approved

The 9100 carries out rate measurement, batch counting and totalising simultaneously. Rate mode is signified by an R appearing at the top left hand corner of the display and counting carries on in the background. The first line of the display shows pulses per minute (PPM) unless a prescaler is in use.

Specification
- Power Supply 85 - 265VAC.
- Auxiliary Output 12VDC ±10% 100mA for powering sensors
- Display 3 line high contrast supertwist backlight
- Line 1: 8 numeric LCD
- Line 2: 12 alphanumeric
- Line 3: 12 alphanumeric
- Keyboard
- Sealed elastometric keyboard with 10 keys
- Connections
  - 1 x 9 way and 1 x 10 way plug in terminal strips with wire clamps. Each way capable of accepting up to 2 OFF 2.5mm² (0.01in²) conductors
  - Prescaler
  - 0.0025 - 9.99999. Multiplying 0.00250 - 9.99999. Dividing 1- 9999
  - Rate Input
  - Input A only. 8 - 30VDC. Maximum 600k PPM (10kHz), minimum 4.7 PPM (0.078Hz ie one pulse every 12.8s)
  - Control Inputs
    - External reset, count inhibit, keyboard disable. Maximum 30Hz contact closure or solid state input. 8 - 30VDC opto-isolated
  - Manual Reset
  - Can be disabled on installation or remotely reset
  - Remote Reset
  - Contact closure or pulse (maximum 30Hz)
  - Automatic Reset Program to reset to zero on reaching preset 3 or vice versa
  - Control Outputs 3 SPST relays. Contacts 5A 260VAC, 220VDC 1300VA/150W Programmable for pulsed, latched or disabled
  - Front Panel Sealing IP65 when properly mounted using gasket supplied
  - Operating Temp. -10°C to +60°C [14°F to 140°F]
  - Storage Temp. -20°C to +70°C [-4°F to 158°F]
  - Relative Humidity 85% at 25°C non-condensing

DPM 951
3 1/2 digit LCD digital panel meter
Panel mount digital meter with a 200mv full scale input. Annunciators for common engineering units and suitable for operation with either 5VDC or 9VDC power.

LCD modules with a full scale reading at 200mV. Operated from either 5VDC or 9VDC with a range of annunciators for common engineering units.

Features
• Low power consumption
• 10mm black character high contrast LCD display
• Backlit version DPM951-T
• 24mm X 48mm bezel
• 5 or 9VDC operation
• 200mV full scale
• Scaleable
• CE Approved

Specification
Supply Voltage 5V (Min 3V max 7V) 9V (min 7V max 12V)
Display 3 1/2 digit black LCD, 10mm characters
Supply Current 2mA typical
Sample rate 3 per second
Backlight Current 80mA
Accuracy 0.1% ± 1 count
Operating Temp. -10°C to +50°C [14°F to 122°F]
Storage Temp. -20°C to +70°C [-4°F to 158°F]

Ordering Information
DPM951-T - Backlit version

DPM 952
3 1/2 digit LCD digital panel meter
3 1/2 digit panel meter with a 200mv full scale input.

LCD modules with a full scale reading at 200mV. Operated from either 5VDC or 9VDC with a range of annunciators for common engineering units.

Features
• Low power consumption
• 36mm X 72mm bezel
• 14mm black character high contrast LCD display
• Backlit version DPM952-T
• 5 or 9VDC operation
• 200mV full scale
• Scaleable
• CE Approved

Specification
Supply Voltage 5V (Min 3V max 7V) 9V (min 7V max 12V)
Display 3 1/2 digit black LCD, 14mm characters
Supply Current 2mA typical
Sample Rate 3 per second
Backlight Current 160mA
Accuracy 0.1% ± 1 count
Operating Temp. -10°C to +50°C [14°F to 122°F]
Storage Temp. -20°C to +70°C [-4°F to 158°F]

Ordering Information
DPM952-T - Backlit version
Trumeter’s new Advanced Panel Meter (APM) includes a fully programmable input scaler; user selectable measurement range (min, max and span); two independent alarm outputs, a fully scaled analogue monitor output. All configurable via an easy to use PC application.

**Features**
- Custom messages and annunciators
- 40 segment curved bar graph display
- Programmable scale
- Full 4 digit readout for accuracy
- Dynamic backlighting
- Two independent alarm outputs
- USB port for custom user settings
- 16 position switch for standard configuration
- Excellent viewing angle

**Novel visual display**
User selectable red, green or white LED backlight. The APM incorporates a large four digit display plus a separate 40 segment bar graph display as well as a custom message area and fully programmable display scales. The backlight can be configured to automatically change colour or flash when the input reaches a certain value or goes outside a specific range.
ENCODERS

ENCODERS 34
4T260 / 4T725 34
4T755 / 4T764 35
15T / TR3 36
4T260
Electronic Incremental Encoder

Compact 30mm encoder with Quadrature output, 10mm hollow shaft and a 100°C operating temperature. This encoder is ideal when space is limited.

The series 4T260 low profile 30 mm package design makes it a perfect solution for many machine and motor applications. The unit has a complete 10mm through-shaft design. The series 260 and its integral bearing set provide for stable and consistent operation, without concerns for axial or radial shaft runout. The standard 100°C temperature capability allows servo motors to operate at higher power outputs and duty cycles. The output has a push/pull output as standard, signals A, B output.

Features
- Quadrature output.
- Anti-rotation flex mount arm.
- 10 mm hollow through shaft.
- Ideal replacement for mechanical counters when used in conjunction with a suitable electronic counter.
- Operates in temperatures up to 100°C.
- Operates at output frequency of up to 300 KHz.
- CE and RoHS compliant

Specification
- Input Voltage Range: 5 to 24V (+10%).
- Regulation, for 5V: 5% with 2% maximum ripple.
- Operation: 300 KHz std.
- Accuracy: 0.017° or 1 Arc/Min.
- Max Shaft Speed: 7,500 rpm continuous.
- Shaft Sizes and Types: 10mm Hollow shaft (through shaft).
- Housing: Aluminium with protective finish.
- Operating Temp.: 0°C to +100°C [32°F to 212°F]
- Humidity: 95% RH.
- Protection: IP54

Ordering Information
- 4T260 - 30mm encoder, Quadrature output, 10mm hollow shaft, 100°C operating temperature.
- 4T26015TPP0250A 250PPR - Push pull output
- 4T26015TPP0500A 500PPR - Push pull output
- 4T26015TPP1000A 1000PPR - Push pull output

4T725
Electronic Incremental Encoder

Low cost rugged encoder 10mm shaft diameter Square mount flange Quadrature output.

This low cost and very rugged size 25 encoder has been designed to suit a wide variety of industrial applications. The unit has a 10mm diameter shaft. A square mounting flange is fitted as standard. A 2M cable is fitted, this enters the unit via a gland situated on the side of the unit. The Output circuit has a push/pull output as standard, signals A, B, output.

Features
- Quadrature output.
- Square mounting flange enables easy mounting
- Robust heavy duty 10 mm shaft
- Ideal replacement for mechanical counters when used in conjunction with a suitable electronic counter.
- CE and RoHS compliant

Specification
- Input Voltage Range: 5 to 24V (+10%).
- Regulation, for 5V: 5% with 2% maximum ripple.
- Operation: 50 to 100 mA typical
- Current Consumption: 20 KHz
- Output Circuits: A, B, @ 20mA each.
- Frequency Response: 0.017° or 1 Arc/Min.
- Max Shaft Speed: 6,000 rpm continuous.
- Shaft Sizes and Types: 10mm diameter
- Housing: Aluminium with protective finish.
- Mounting: Square flange
- Operating Temp.: -10°C to +70°C [14°F to 158°F]
- Humidity: 95% RH.
- Protection: IP54

- 4T734PPF10SG21000 1000PPR - Push pull output
4T755
Electronic Incremental Encoder

Miniature high precision encoder with a 10mm blind hollow shaft it has a 125Khz frequency response and can mount directly onto motor shafts. Quadrature output and Flexible mounting bracket.

Series 4T755 encoders are ideal for applications requiring a miniature, high precision low cost encoder. The encoder has a flexible mounting and a blind hollow shaft (10mm diameter) for mounting directly onto motor shafts etc. the Output circuit has a push/pull output as standard, signals A, B, output.

Features
• Quadrature output
• Fixable by flexible mountings
• 10 mm blind hollow shaft
• Ideal replacement for mechanical counters when used in conjunction with a suitable electronic counter
• Operates at output frequency of up to 300 KHz
• CE and RoHS compliant

Specification
Input Voltage Range 5 to 24V (+10%)
Regulation, for 5V 5%, with 2% maximum ripple
Operation
Current Consumption 80 mA typical
Output Circuits A, B, @ 20mA each.
Frequency Response 125 KHz
Accuracy ±0.017° or 1 Arc / Min
Max Shaft Speed 7,500 rpm continuous
Shaft Sizes and Types Blind hollow shaft (10mm diameter)
Housing Aluminium with protective finish
Operating Temp. 0°C to +70°C [32°F to 158°F]
Humidity 95% RH.
Protection IP54

4T764
Electronic Incremental Encoder

10mm hollow through shaft, Fixing from either side, Flexible mounting, 50Khz frequency response, Quadrature output Push pull output circuit.

4T764 Series encoders have a full through hollow shaft (which may be fixed at either end). The bore size is 10mm. The encoder body is fixed by means of two flexible mountings which compensate for minor shaft misalignment. The Output circuit has a push/pull output as standard, signals A, B, output

Features
• Quadrature output
• Fixable by flexible mountings
• 10 mm hollow through shaft, can be fixed at either end with optional clamp ring
• Ideal replacement for mechanical counters when used in conjunction with a suitable electronic counter
• CE and RoHS compliant

Specification
Input Voltage Range 4.75 to 24V (+10%)
Regulation, for 5V 5%, with 2% maximum ripple
Operation
Current Consumption 75 to 125 mA
Output Circuits A, B, @ 20mA each
Frequency Response 50 KHz
Accuracy 0.0117° or 1 Arc / Min
Max Shaft Speed 6,000 rpm continuous
Shaft Sizes and Types 10mm through shaft
Housing Aluminium with protective finish
Mounting Shaft set screws or split clamp and flexible mounting springs
Operating Temp. -10°C to +70°C [14°F to 158°F]
Humidity 95% RH.
Protection IP54

Ordering Information
• 4T764 - Encoder, 10mm hollow through shaft, Quadrature output, Push pull output circuit

• 019141-01 - Encoder mounting bracket for mounting encoder onto 1 or 2 wheel measuring systems
• 4TCLP - Optional Encoder Clamp Ring
**15T Electronic Encoder**

The Model 15T or 15H offers a high performance feedback solution in a low profile package. Unlike modular or kit encoders, the Model 15 utilizes an integral bearing set, and an innovative flexible mounting system which is much more tolerant to axial misalignment or radial shaft run-out. The slotted flex mounts provide 20 or 30 degrees of rotational adjustment for commutation or index pulse timing.

Installation is quick and easy! For brushless servo motor applications, three 120° electrical phase tracks can provide up to 12 pole commutation feedback. The optional 100°C and 120°C temperature options allow servo motors to operate at higher power outputs and duty cycles. The Model 15 provides stable and reliable operation and is an excellent replacement for other manufacturers modular encoders where a high performance solution is desired.

**Features**
- Very high performance economical encoder
- Low profile 1.0" (25.4 mm) height and 1.5" (38 mm) diameter
- Thru-bore (sizes up to 0.375" or 10 mm)
- Simple, innovative flex mounting system (global mounting standards)
- Up to 12 pole commutation optional (for brushless motor control)
- CE and RoHS compliant

**TR3 Heavy Duty Tru-Trac**

An integrated heavy duty encoder and spring loaded measuring wheel assembly all in one, easy-to-use, compact unit. Available in a single, or optional dual-wheel format, the TR3 Heavy Duty Tru-Trac™ is a versatile solution for tracking velocity, position or distance over a wide variety of surfaces in almost any industrial application.

Its spring loaded torsion arm provides a simple-to-adjust torsion load, allowing the TR3 Heavy Duty Tru-Trac™ to be mounted in any orientation, even upside-down.

**Features**
- Heavy duty encoder and measuring wheel solution integrated into one
- Industrial strength unit
- Spring loaded torsion arm makes wheel pressure adjustments a snap
- Easily installed in a vertical, horizontal, or upside-down orientation
- Operates over a variety of surfaces at speeds up to 3000 feet per minute
- Integrated module simplifies your system design, reducing cost
- An integrated heavy duty encoder and spring loaded measuring wheel assembly
- CE and RoHS compliant

LENGTH MEASUREMENT

LENGTH MEASUREMENT 37
2300 / 2400 38
2700 / 2600 39
2630 / 3900B 40
**2300 Mechanical Length Measuring Unit**

Heavy duty measuring unit, dual measuring wheels for better stability and contact, frame/bulkhead mounted.

This rugged instrument has a wide range of applications where an accurate record of length is required. It is a strong, heavy duty unit for use on calenders, tenters, rolling, ribbon winding textile machinery and almost all other continuous manufacturing processes.

**Features**
- Sturdy die-cast construction
- Uses standard measuring wheels
- Can be tilted out of the way when not in use
- The 2300 bolts directly onto a bulkhead or frame member
- The integral hinge arrangement allows the unit to be positioned at any angle
- The measuring wheels supplied can be 0.5m or 0.3m (18in or 12in) circumference (specify when ordering)
- The weight of the assembly holds it in contact with the material being measured

**Specification**
- Shaft Diameter: 7mm (0.275in).
- Units of Measurement: Metres/centimetres, yards/eighths or feet/inches (other measurements may be available to special order; please ask).
- Packed Dimensions: 180mm (7.09in) x 200mm (7.87in) x 270mm (10.63in)
- Gross Weights: 1.3kg (2.86lb)

**Ordering Information**
- 2300-11MCG - Top Going Counter. (M/Cm.) with 2 x ½ Metre Wheels and Hinged Bracket
- 2300-11MCC - Top Coming Counter. (M/Cm.) with 2 x ½ Metre Wheels and Hinged Bracket
- 2300-14MFG - Top Going Counter. (Ft/Ins.) with 2 ft. Wheels and Hinged Bracket
- 2300-14MFC - Top Going Counter. (Ft/Ins.) with 2 ft. Wheels and Hinged Bracket
- 2300-13MYG - Top Going Counter. (Yds./1/8's) with 2 ½ Yard Wheels and Hinged Bracket
- 2300-13MYC - Top Coming Counter. (Yds./1/8’s) with 2 ½ Yard Wheels and Hinged Bracket

**2401 Mechanical Length Measuring Unit**

Heavy duty measuring unit, single wheel unit which has frame or bulkhead mounting.

This rugged instrument has a wide range of applications where an accurate record of length is required. It is a strong, heavy duty unit for use on calenders, tenters, rolling, ribbon winding textile machinery and almost all other continuous manufacturing processes.

**Features**
- Sturdy die-cast construction
- Uses standard measuring wheels
- Can be tilted out of the way when not in use
- The 2400 unit is slung from a stay rod. A hinge arrangement on the stay rod allows the unit to be positioned at any angle
- The measuring wheel supplied can be 0.5m or 0.3m (18in or 12in) circumference (specify when ordering)
- The weight of the assembly holds it in contact with the material being measured

**Specification**
- Shaft Diameter: 7mm (0.275in).
- Units of Measurement: Metres/centimetres, yards/eighths or feet/inches (other measurements may be available to special order; please ask).
- Packed Dimensions: 520mm (20.47in) x 170mm (6.69in) x 130mm (5.12in)
- Gross Weights: 2.0kg (4.4lb)

**Ordering Information**
- 2401-11MCG - Top Going Counter. (M/Cms.) 1/2m Rubber Covered Wheel
- 2401-11MCC - Top Coming Counter. (M/Cms.) 1/2m Rubber Covered Wheel

- 2401-54MFFC - Top Coming Counter. (Ft.) 12” knurled Aluminum Wheel
- 2401-34MFFG - Top Going Counter. (Ft.) 12” Poly Covered Wheel
- 2401-14MFYG - Top Going Counter. (Yds.) 12” Rubber Covered Wheel
- 2401-14MFYC - Top Coming Counter. (Yds.) 12” Rubber Covered Wheel

other versions upon request.
2701
Mechanical Length Measuring Unit

Heavy duty measuring unit, twin wheel, stay rod mounted. This rugged instrument has a wide range of applications where an accurate record of length is required. It is a strong, heavy duty unit for use on calenders, tenter frames, rolling, ribbon winding textile machinery and almost all other continuous manufacturing processes.

Features
- Sturdy die-cast construction
- Uses standard measuring wheels
- Can be tilted out of the way when not in use
- Supplied with stand
- The 2700 unit is slung from a stay rod. A hinge arrangement on the stay rod allows the unit to be positioned at any angle
- The 2401 is supplied with a 475mm (17.99in) stay rod and stand
- The measuring wheel supplied can be 0.5m or 0.3m (18in or 12in) circumference (specify when ordering)
- The weight of the assembly holds it in contact with the material being measured.

Specification
- Shaft Diameter: 7mm (0.275in).
- Units of Measurement: Metres/centimetres, yards/eighths or feet/1ches (other measurements may be available on special order; please ask).
- Packed Dimensions: 520mm (20.47in) x 170mm (6.69in) x 130mm (5.12in)
- Gross Weight: 2.0kg (4.4lb)

Ordering Information
- 2701-11MCG - Top Going Counter. (M/Cms.) 1/2m Rubber Covered Wheels
- 2701-11MCC - Top Coming Counter. (M/Cms.) 1/2m Rubber Covered Wheels

- 2701-13MYGC - Top Going Counter. (Yds.) 18” Rubber Covered Wheels
- 2701-12MCG - Top Going Counter. (M/Cms.) 1/3m Rubber Covered Wheel
- Other versions upon request.

2600
Cable, Wire & Rope Measuring Machine

Heavy duty, multi-purpose measuring machine which measures the length of cable, wire, rope, hose, extrusions or continuous strip from 6mm (0.24in) to 76mm (3.0in) diameter.

Features
- Measures up to 76mm (3.0in) diameter
- Heavy duty cast structure with integral mounting flanges
- Totalising counter fitted

The pivot arm, also available separately (2620), carries the 500mm circumference precision ground measuring wheel. The shaft that supports the measuring wheel revolves in a double ball race which is mounted in the pivot arm. A choice of polyurethane covered or knurled aluminium measuring wheels is available. The length is indicated on a 3602 counter mounted at the side of the unit.

Specification
- Cable Diameter Range: 6mm (0.24in) to 76mm (2.99in)
- Measuring Wheel: 500mm
- Circumference: 500mm
- Maximum Speed of Travel: 1500 metres/min or 3000 counts/min whichever is lower
- Units of Measurement: Metres and centimetres, yards and eighths, or feet and inches
- Counters Type: 3602
- Packed Dimensions: 53mm (2.09in) x 33mm (1.30in) x 33mm (1.30in)
- Gross Weight: 15.0kg (33.0lb)

Ordering Information
- 2600 - Multi-purpose Measuring Machine
  Wheel type - (Select & add code to 2600-???)

  332 for knurled aluminium wheel & mechanical display
  Unit of measurement -(Select & add code to 2600-132?)
  C Metres/Centimetres
  F Feet and Inches

Material travel & counter position - (Select & add code to 2600-132CA)
A for material travelling towards the operator; counter on his left
B for material travelling away from the operator; counter on his left
C for material travelling away from the operator; counter on his right
D for material travelling towards the operator; counter on his right
E.g. 2600-132CA = Poly wheel displaying in metres/centimetres, material travelling towards the operator with the counter on his left
2620

Multi Purpose Surface Length Measuring Machine

This is a pivot arm assembly only that rests on the “guided” material to be measured. As well as cable it is suitable many materials such as steel, plastic and board.

Features
- Heavy duty cast aluminium structure with integral mounting collar
- Totalising counter
- Optional encoder & electronic counter available

The pivot arm carries a 500mm circumference precision ground measuring wheel. The shaft that supports the measuring wheel revolves in a double ball race which is mounted in the pivot arm. A choice of polyurethane covered, knurled or plain aluminium measuring wheels is available.

Specification
| Measurement | 500mm |
| Wheel Circumference | |
| Maximum Speed of Travel | 1500 metres/min or 3000 counts/minute whichever is lower |
| Units of Measurement | Metres and centimetres or feet and inches |

Ordering Information

132 for polyurethane covered wheel & mechanical display
332 for knurled aluminium wheel & mechanical display
Unit of measurement - (Select & add code to 2620-132C)
A for material travelling towards the operator; counter on his left
B for material travelling away from the operator; counter on his right
C for material travelling away from the operator; counter on his right
D for material travelling towards the operator; counter on his right

3260-132CA = Poly wheel displaying in metres/centimetres, material travelling towards the operator with the counter on his left

2630

Mechanical Length Measuring Unit

Robust wire measuring machine designed for continuous high speed operation, suitable for cable and wire up to 15mm in diameter. The 250mm circumference, precision ground measuring wheel runs in self lubricating bearings.

Features
- Continuous operation at up to 300 metres per minute or 50 counts per second
- Self lubricating bearings on both rollers
- Heavy duty cast structure
- Hardened steel inlet and outlet guides
- Polyurethane covered measuring wheel fitted as standard

The machine is equipped with two adjustable tension springs, mounted externally, which can be unhooked from their anchor. This allows the measuring head to be pivoted up to a backstop to facilitate threading the cable through the machine. When in position, these springs grip the cable between the measuring roller and the bottom roller. They should be adjusted for the minimum tension required to prevent slippage.

Specification
| Maximum Wire Diameter | 15mm (0.59in) |
| Measuring Wheel Circumference | 250mm |
| Maximum Speed of Travel | 300 metres/min, 300.11 feet/7.8 feet (4921 ft/min) or 3000 counts/minute whichever is lower |
| Units of Measurement | Metres/centimetres or Feet/inches |
| Counters Type | 3602 |
| Packed Dimensions | 180mm (7.09in) x 200mm |
| Gross Weight | 3.0kg (6.6lb) |
| Operating Life | Beyond 3 million counts |

Ordering Information

B for material travelling away from the operator

3260-132CA = Cable & wire measurer displaying in metres/centimetres, material travelling towards the operator.

3900B

Trumeasure 3900

Fabric & Carpet Measurement

Robust, durable & accurate length measurement

The Trumeasure 3900B incorporate the very best features from over 60 years experience in the specialised length measurement sector. These machines incorporate exclusive new components to ensure reliability and continuing accuracy even when operating under the most demanding conditions.

Features
- US Weights & Measures Approval
- Measures material up to 24mm (0.94in) thick
- Accommodates easily marked and/or abrasive materials (with special wheels)
- Accuracy 0.25%
- Accommodates pile up or no pile materials
- Optional encoder output
- Can be built into manufacturing & finishing processes

Operates as the material passes between the measuring roller and the spring loaded pressure roller. The machine is activated by the movement of the material. All Trumeasure machines incorporate an integral brake to prevent overspin at the end of the piece. The brake is automatically released when a further piece of material is passed between the rollers.
