

Remote Terminal	GT1-OD32ML
Connector Terminal Conversion Unit	XW2D-40G6
Connecting Cable	XW2Z-□□□B
Connections Diagrams	<p>The diagram illustrates the internal connections for the GT1-OD32ML remote terminal, XW2D-40G6 connector terminal conversion unit, and XW2Z-□□□B connecting cable. It shows two word blocks, Word m and Word m+1, each containing 20 channels (A1-A20 and B1-B20). Each channel has a load (L) and is connected to a central bus. The bus is connected to a power source (V) and ground (G).</p>

Each V and G terminal is connected internally.
